Raising Children and Young People In A Hyper-Sexualised Society Wednesday 31/8, 7pm

Our children and young people are facing REAL ISSUES. Parents need answers. At a time where parents can feel overwhelmed and powerless to address issues such as sex, dating, relationships and pornography there is a huge amount parents can do. We aim to address the intimate questions that parents have while empowering them to be an influential presence in their children’s lives. Presented by YOURCHOICEZ

This presentation is suitable for all families of the school.

Childcare is available.

Open Day is Coming up
Saturday 17th September and is an opportunity for parents and visitors to share in the vibrancy of school days at Kindlehill. The classrooms will have displays of the children’s work and there will also be beautiful performances. There will be good food, recreational activities for all as well as our magical craft stall. Hope to see you there!

Cakes for Open Day
(drop off Friday 16th or Saturday 17th Sept)

It is genuinely special to come along to our school open day and purchase a chunk of homemade chocolate cake, or a giant cookie that has been baked with real ingredients and love. It is also a wonderful opportunity for children to help with cooking. It doesn’t have to look or taste perfect, as homemade always has its own unique ‘twist’.

Class 3/4 parents ask that all families make a treat for the café at the Open Day. Food can be dropped off the day before the fair, or on the morning of the fair. A list of ingredients attached to each item is helpful, and is mindful of those with food sensitivities. Please don’t assume everyone else will bake something – if we all make a treat, there will be plenty to go around, and maybe even some leftovers!!!

Blue Mountains Community Gardens

The Mick Dark Talk for the Future - September 25th 2pm
This talk honours the generosity and legacy of Varuna’s patron Mick Dark, with a talk to inspire community discussion of environmental issues of local and global significance.

Two internationally respected speakers share their perspectives on the importance of recognising and acting with the knowledge that we are not separate from but intrinsically connected to nature. Whether we’re talking individuals, governments or global corporations this essential shift in thinking is already shaping our collective future.
